PART I.

SUMMARY OF THE ADMINISTRATION.

PART I.

GENERAL SUMMARY.

SECTION I.—GENERAL AND POLITICAL.

Col. Sir Hugh Daly, K.C.I.E., C.S.I., held the office of Chief Commissioner ^{General.} throughout the year. He paid one visit to Coorg—in February 1914 when he opened a new Veterinary Dispensary at Somwarpet, built by Mr. D. Venkataramana Shetti and generously handed over by him to Government for the use of the Veterinary Department. Visits were also paid to Pollibetta and Virajendrapet. At the latter place the Chief Commissioner addressed the first local conference of Co-operative Credit Societies which has taken place in Coorg, and laid the foundation stone of a clock tower presented to the town by Mr. Mukkati Ayyappa in commemoration of the King-Emperor's Coronation at Delhi in 1911. On February 6th a Durbar was held at Mercara at which the Chief Commissioner presented badges and sanads of Rao Bahadur to Messrs. K. Appayya, Assistant Commissioner and A. R. Ramayya Punja, retired District Judge of Bangalore.

His Excellency the Viceroy and Governor-General of India paid a visit to Mysore in November 1913. Two deputations—one from the Coorgs and the other representing the Planting Community—waited on His Excellency there and presented addresses of welcome.

2. Mr. F. Hannington, I.C.S., held the office of Commissioner throughout the year.

SECTION II.—ADMINISTRATION OF THE LAND.

3. The season was somewhat unfavourable for the rice crop especially in Nanjarajpatna and parts of Kiggatnad. The crop in Nanjarajpatna was almost everywhere very light and in many places was a complete failure, necessitating a remission of Rs. 334 from the assessment. In Padinalknad, however, the shortage of rain resulted in a crop above the average. This is due to the fact that in normal years the paddy lands adjoining the western ghâts suffer from an excess of moisture.

Realization of the revenue and agricultural advances.
Part II, pages 1-3.

The coffee crop was somewhat below the average on Indian estates but extremely good on European estates and abnormally so on some. Prices however which had been fairly good at the commencement of the season showed a tendency to weaken towards its close. There was a further small decrease (434 acres) in the area under coffee.

The land revenue demand showed an increase of Rs. 6,247, mainly due to the introduction of the new settlement rates into Yedenalknad. With the settlement of this taluk the settlement operations for the province were completed. A final settlement report was submitted to the Chief Commissioner and approved of by him. As a result of the settlement operations there has been a net increase in revenue for the whole province of Rs. 16,007 representing an increase of 4·8 per cent. on the previous revenue.

(Re-settlement).
[Part II, page 3.]

The collection of the land revenue was carried out promptly and without difficulty. Excluding Rs. 60,944 due by European planters who are allowed to defer payment until 31st May, there was an actual balance uncollected of only Rs. 9,507.

SECTION III.—PROTECTION.

Police.
[Part II,
pages 4-5.]

4. Four probationary Sub-Inspectors returned after undergoing training at Vellore and one other was sent for training during the year. This brings the Sub-Inspector grade up to the full strength recommended by the Police Commission.

The number of cognizable cases again showed an increase, but this year only a slight one of 17 over last year's figures, which however were 88 more than those for the year before. The number of murder cases increased remarkably; no less than 11 cases of murder and 4 of culpable homicide were dealt with.

Most of the increase in crime in South Coorg is attributable to the Yeravars. They continued to be carefully watched and their movements were reported to the police by the village patels.

Criminal
Justice.
[Part II,
pages 5-6.]

5. The total number of cases brought to trial increased by 698. The number of cases brought under the Workmen's Breach of Contract Act continued to increase, being 1,547 or exactly double the number filed in 1911.

Prisons.
[Part II,
pages 6-8.]

6. The convict population during the year was the lowest on record.

The health of the prisoners was not quite so good, due to an increase in the number of cases of dysentery and malaria. The rate of sickness per mille rose from 11.26 to 19.00. Two men in an extra-mural gang engaged in plunging holes in rock for blasting charges were seriously injured by an explosion through carelessness in plunging an old hole without first making certain that the charge placed in it had been completely exploded.

The construction of a new jail at a cost of Rs. 1,25,000 has been sanctioned by the Government of India. A site has been selected on the old race course hill above the Police Training School. Plans and estimates have been prepared and are under consideration.

Civil Justice.
[Part II,
pages 8-9.]

7. The number of civil suits instituted increased only very slightly by 31, but the total thus reached is the highest that has been attained during the past decade. The average value of each suit remained the same as last year (Rs. 92).

Registration.
[Part II,
page 9.]

8. The total number of documents registered rose very slightly by 10, but there was an increase of Rs. 33,340 in the value of the property registered. The surplus on the working of the department was slightly less than last year.

The work of registration was performed with the greatest promptitude, the average time taken for the registration of each document being only 12 hours.

9. The total expenditure on education amounted to Rs. 27,608 representing a percentage of 29·59 of the total income. Of this however only Rs. 15,590 or a percentage of 19·18 was met from the ordinary income of the Board, the balance representing an Imperial grant for education. The expenditure in the previous year was Rs. 18,760.

District Board.
[Part II,
pages 9-11.]

Five new schools were opened during the year, and there are now 75 schools with 4,740 scholars under the Board.

A temporary dispensary located at Srimangala for 6 months was made permanent, and an in-patient ward was opened at Gonikoppal for such patients as were prepared to meet their own charges for maintenance.

An additional Sanitary Inspector for the charge of the two northern taluks was under training at the King Institute, Madras.

Expenditure on dispensaries and sanitation rose from Rs. 10,973 to Rs. 12,998.

SECTION IV.—PRODUCTION AND DISTRIBUTION.

10. The total rainfall at Mercara amounted to 108·99 inches or 17 inches below the average for the previous 15 years. The deficiency occurred in September and during the north-east monsoon, which ended abruptly with four days' very heavy rain in October.

Weather and
crops.
[Part II,
pages 13-14.]

The area of wet holdings fell by 478 acres. Except in parts of Padinalknad the paddy crop was not good. The area under coffee showed a very slight decrease.

The attempt to plant tea on abandoned coffee land referred to in last year's report has been given up as the young plants failed to survive the drought during the hot weather. A plantation of tea was however opened out on virgin soil at Hysodlu near Hudikeri by the Glen Lorna Tea Company and the results are said to have been most encouraging. The tapping of ceara rubber continued in South Coorg. The quantity of latex obtained was disappointing but the quality of the rubber produced was excellent and fetched the highest prices on the market. In North Coorg ceara has proved an entire failure and all attempts to work it have been abandoned. The experimental farm at Gonikoppal has been abandoned, and there is now only the farm at Sidapur. Good work was done here in the cultivation of oranges, potatoes and maize and attention has now been turned to the silk industry. Some acres of mulberry were planted during the year and the rearing of the silk worms themselves will be undertaken in the current year.

11. The area affected by fires showed a satisfactory decrease of 1,000 acres.

Forests.
[Part II,
pages 14-16.]

Excellent work was done in the eradication of lantana; 2,000 acres in reserved forests and 650 acres in paisaris were cleared at a total cost of Rs. 18,000.

Out of 200 tons of sandalwood collected 144 tons were sold at an average price of Rs. 978 per ton, the highest on record.

The western ghâts have been opened up by a bridle-path for 18 miles from Bhagamandala to Nalknad Palace while $2\frac{1}{2}$ miles of a road up the Barapolé valley was constructed.

Public works.
[Part II,
pages 16-17.]

12. The new house for the Head Master, Mercara High School was completed. Rosebank was acquired for the Assistant Superintendent of Police and put in thorough repair.

The District Fund roads were maintained in good order. The earthwork on the new road from Sidapur to Pollibetta was completed, and the first section of the Fraserpet-Sidapur road was metalled. A bridge was constructed across the Kotail river on the Mercara-Nalknad road and a brick bridge at 136/1 on the Mysore-Cannanore road, which collapsed during the south-west monsoon of 1912, was replaced by a girder bridge.

Municipal.
[Part II,
pages 11-12.]

13. In Mercara a non-official Vice-President was appointed for one year. With a special grant of Rs. 40,000 received from Government important improvement schemes have been taken in hand and some are already completed. The improvement of the Gowli bazaar was commenced, the swamp beside it was drained, six model buildings were constructed on healthy sites to relieve the more congested area, and a good road is to be run right through the bazaar. Rs. 7,000 was spent by the Public Works Department in the drainage of other swamps round Mercara, and Rs. 11,000 was set apart for improvements to the water-works.

At Virajendrapet there was a small outbreak of plague in August 1913. Twelve persons were attacked of whom eight died. The town was subsequently completely disinfected.

SECTION V.—REVENUE AND FINANCE,

Gross revenue.
[Part II,
page 18.]

14. The net financial results of the year's transactions showed a surplus of Rs. 2,04,497, as against Rs. 76,712 the year before, the main increases in receipts being under Forests (Rs. 47,574), Excise (Rs. 18,203) and Stamps (Rs. 10,324).

Excise.
[Part II,
pages 18-19.]

15. The income under this head again showed considerable increase, although six arrack shops and seven toddy shops were closed. The revenue from arrack shops increased by Rs. 8,750 and that from toddy shops by Rs. 600. The old "bari" system under which tree owners leased their trees to the tappers for the toddy tapped on alternate days has now practically ceased. This reform should go a long way towards the checking of drunkenness among the better classes.

There was a slight increase in the number of prosecution for excise offences. The majority of the cases related to illicit distillation of paddy arrack and to toddy sales without license.

The increase in the sales of ganja noted last year continued, 843 seers being sold as compared with 740 in the previous year, an increase of 400 seers over the normal figure. The reason appears to be as stated last year that the ganja sold in Coorg is a better quality and cheaper than the ganja obtainable in Mysore. There is reason to believe that the Mysore ganja has since improved in quality and the figures for the current year may be expected to show a considerable decrease in sales in Coorg.

16. There was an increase of nearly Rs. 9,000 in receipts from sales of stamps.
[Part II, page 20.]

17. The finances of the various local funds remained in a satisfactory condition.
Local Funds.
[Part II, pages 20-21.]

SECTION VI.—VITAL STATISTICS AND MEDICAL SERVICES.

18. The death-rate showed a slight decrease, falling to 33.48 per mille.

Births and deaths.
[Part II, pages 21-22.]

19. The year was rather more healthy than the preceding one, and the total number of patients treated fell by nearly 12,000. The number of in-patients also fell.
Medical relief.
[Part II, page 22.]

20. Much of the Sanitary Inspector's time was spent at Virajendrapet in dealing with the outbreak of plague there. The appointment of a second Sanitary Inspector during the current year will enable some attention to be paid to the problems of village sanitation with which the single Sanitary Inspector has so far been unable to cope.
Sanitation.
[Part II, pages 23.]

As already mentioned above, important sanitary schemes have been undertaken in Mercara with generous assistance from Government.

SECTION VII.—INSTRUCTION.

21. During the year Coorg was formed with South Canara and Bangalore into a new ninth circle under an Inspector with head-quarters at Bangalore.
Education.
[Part II, pages 24-25.]

A recurring grant-in-aid of Rs. 10,000 from the Government of India rendered possible the very necessary strengthening of the staff of the elementary schools and the improvement of their pay and prospects to some extent. Five new schools were opened during the year and the number of scholars increased by 700 to 7,684 representing 21.01 per cent. of the population of school-going age.

In the secondary schools the attendance rose by 60 to 510 of whom 109 were girls. The private Lower Secondary School at Ammatti continued to exist but does not yet fulfil any of the requirements of the Educational Department.

The Lower Secondary Girls' School at Mercara continued its good work under the management of the nuns. Plans and estimates have been made out for a new dormitory which when completed will give the institution the extra accommodation it so badly needs. Estimates have also been prepared for providing much needed hostels for the Central High School and are under discussion.

SECTION IX.—MISCELLANEOUS.

Co-operative
credit societies.

22. The Co-operative credit societies continued to do steadily good work. The result of the first year's working of the new cattle insurance societies is most encouraging. The rate of mortality among insured cattle was very favourable and all the societies were able to make a small profit. The scheme seems to meet with the approval of the ryots and they may be expected to support it in increasing numbers in future.

Sholas,

23. The protection of sholas by the burning of all grass before the hot weather sets in was again successfully accomplished. Most of the ryots preferred to accept remuneration in the form of free grazing for their cattle instead of as a remission of their Local Fund Cess as in previous years.

Lantana.

24. The progress in lantana clearance was disappointing. It cannot be said that much more was done except in Kiggatnad, than to maintain the ground already won. The Forest Department however has entered upon a systematic lantana campaign which if sanctioned is calculated to free the reserved forests of the pest within a term of years.

25. The Coorg Noxious Weeds Regulation, I of 1914, was promulgated during the year and came into force with effect from the first day of the current year. If judiciously worked it should add the impetus which is now needed to carry the campaign a stage further towards success.

PART II.

DEPARTMENTAL CHAPTERS.

PART II.

DEPARTMENTAL CHAPTERS.

I.—PHYSICAL AND POLITICAL GEOGRAPHY.

1. The standing information which should be incorporated in this Chapter is printed in the administration report for the year 1911–1912 under the following headings :—

	PAGE.
Physical features of the country ...	1
Area	3
Climate	3
Chief staples	3
Historical summary	4
Form of administration	5
Character of land tenures	7
System of survey and settlements	8
Civil divisions of the British territory	10
Details of the last census	10
Tribes and languages	11

Standing information and geographical statistics.

Other statistical information will be found in the Coorg District Gazetteer, Volume B. Statements Nos. 1 to 5 exhibit the prescribed statistics regarding the area, character of the surface, climate, civil divisions and population of the province.

2. There were no changes in the form of administration during the year under report.

Changes in the administration.

3. Mysore is the only foreign State adjoining Coorg and the relations therewith were satisfactory.

Relations with Native States.

4. The public health during the year was fair. The mortality registered was lower by 4·34 per cent. than the average for the previous five years though there were outbreaks of cholera, plague and small-pox in parts which accounted for 243 deaths. The failure of the later rains was prejudicial to the rice crop and the outturn was consequently much below the normal. The prices of the principal food-grains ruled high. The coffee crop was better than that of the previous year but the market was dull. Though there was no outbreak of rinderpest in the province the cattle mortality was heavy. The records of civil litigation and the transactions of the Registration and Excise departments however point to a general prosperity. There was a material increase in the rate of hire payable for labour.

Condition of the people.

II.—ADMINISTRATION OF THE LAND. (1913–1914.)

5. Statement No. 6—*Land revenue*.—The demand for the year was Rs. 3,64,845 as against Rs. 3,58,598 or an increase of Rs. 6,247. The bulk of the increase was due to the introduction of the revenue re-settlement of the Yedenaknad taluk and the remainder to the sale of a larger area of Government waste lands for the cultivation of coffee, etc. The gross demand including the outstanding balance (Rs. 66,823) amounted to Rs. 4,31,668. The collections

Realization of the revenue.

and remissions aggregated Rs. 3,61,217. The balance at the close of the year was thus Rs. 70,451, which however included Rs. 60,944 due by planters who are allowed to defer payment till the end of May. The actual balance was therefore Rs. 9,507.

6. Statement No. 7—*Assignment of land revenue*.—The total value of assignments was Rs. 1,09,502 or Rs. 467 more than that of the previous year. The increase is wholly due to the assignment of a portion of the assessment levied on the excess area of certain privileged holdings discovered at the re-settlement.

7. The acreage held under the principal tenures is exhibited in the following table, which includes the corresponding figures for the previous year:—

Years.	Sagu.		Jama.		Jodi		Umbl.		Jdgir.	
	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.	Wet.	Dry.
1912-1913	44,605	19,861	40,556	106	3,698	873	7,670	34	3,752	883
1913-1914	45,275	19,964	40,490	195	3,679	862	7,671	34	3,752	883

Continued.

Years.	Coffee.	Orange.	Arecaunt.	Cardamom.	Rubber.	Agave.	Pepper.	Total.
1912-1913	94,332	2,494	237	58,612	2,470	280	1,069	281,622
1913-1914	94,880	2,906	237	59,182	2,745	280	1,138	284,173

The increases under *sagu* and orange are chiefly owing to excess areas found by re-survey, while those under coffee, cardamom and rubber are due to fresh grants and expansion of cultivation.

8. Statement No. 8—*Incidence of land revenue on area and population*.—This is a quinquennial return and was last prepared in 1912-1913 (vide paragraph 8 of the report for that year).

9. Statement No. 9—*Transfers of landed property*.—There were 53 transfers by order of a court of unprivileged lands. Thirty-five cases refer to sales by revenue courts for arrears of assessment and 18 to civil court sales. Of the number sold by revenue courts the lands were resumed to Government in 13 instances for want of bidders. Thirteen *jama* holdings amounting to 48 acres were brought to sale for default of payment of assessment and were transferred to the auction purchasers, the privileged tenure becoming thereby extinct.

Agricultural
advances.

10. Statements Nos. 10, 11 and 12—*Transactions under the Land Improvement and Agriculturists' Loans Acts*.—The total amount advanced to cultivators during the year under both acts amounted to Rs. 24,885 or Rs. 645 more than that of 1912-1913. Including the outstanding balance (Rs. 40,179) at the commencement of the year, the gross sum for recovery amounted to Rs. 65,064. The realizations aggregated Rs. 17,414 leaving a balance of Rs. 47,650 of which Rs. 47,018 represents instalments not payable during the

year and Rs. 632 those in respect of which there was default; the whole of the arrear balance, except Rs. 247, the collection of which has been suspended, has since been realized. In only three cases had lands to be attached and sold, for arrears aggregating Rs. 112-3-1. The net profit to Government from these loan operations was Rs. 1,642 against an average of Rs. 1,089 for the preceding five years.

11. The amount advanced under the Land Improvement Loans Act, 1883, was Rs. 11,655. The number of ryots benefited was 120 and the sums distributed ranged from Rs. 20 to Rs. 400. The amount which became due during the year (including arrears) was Rs. 7,769 and the percentage of collection was 95·21 against 92·99 in the previous year.

12. The advances under the Agriculturists' Loans Act, 1884, amounted to Rs. 13,230 and were distributed among 337 ryots in sums varying from Rs. 20 to Rs. 180. The total amount collected was Rs. 10,017 and the percentage of collection to amount due (10,277) was 97·47 as compared with 98·00 in 1912-1913.

13. In consequence of the heavy mortality among cattle the number of applications for loans under the Agriculturists' Loans Act was unusually large. As many deserving applications as possible were granted and this resulted in an increase of Rs. 1,440 over the amount advanced in 1912-1913.

14. Statement No. 13—*Survey and Settlement*.—The new settlement for the Yedenalknad taluk was introduced during the year and resulted in a net increase of Rs. 4,699-2-11. This completes the settlement operations for the whole province. The final settlement report was drawn up and approved of by the Chief Commissioner. The total net increase in revenue for the whole province, as the result of the settlement operations has been Rs. 16,007-6-6 or 4·86 per cent. of the previous revenue.

Surveys, settle-
ments and land
records

15. The Department of Land Records and Agriculture continued to be under the executive charge of Mr. Gustav Haller.

16. The progress made by the Land Record Department was satisfactory. The maps and records were kept up to date and 42 village maps were republished.

17. A survey school was held at Fraserpet during the monsoon and ten parpattigars, twelve other officials and four candidates were declared to have qualified in surveying.

18. The area of land sold under the Waste Land Rules during the year was 126·82 acres. Excluding timber growth, the value realised was Rs. 2,191, the average price per acre being Rs. 17-4-0, compared with Rs. 20-6-4 in the previous year.

Waste lands,

19. The number of minors (4) under the official guardian remained the same as in the previous year, there being no fresh admissions. The arrangements made for the management of their properties were satisfactory.

Wards' estates.

Revenue and
rent-paying
classes.

20. There are no *zamindaris* in Coorg and the great bulk of the holdings are *ryotwari*, the ordinary tenure being known as *sagu*, though there are one or two separate villages held as *jagirs*. Particulars have been given in paragraph 7 *supra* of the holdings under the various classes of tenure, a description of which will be found in paragraphs 23—30 of the administration report for the year 1911-1912. Owing to the fact that individual ryots frequently hold land under more than one tenure it is impracticable to compile statistics of the several rent-paying classes. Reference has been made in paragraphs 6 and 8 *supra* to the revenue foregone in respect of the several privileged tenures and to the incidence of the land-revenue demand on the population, while information as to the average assessment is furnished in Statement No. 82.

III.—PROTECTION.

Standing
information.

21. The standing information which should be incorporated in this Chapter is printed at page 14 of the administration report for the year 1911-1912 under the heading "Legislating Authority".

Course of
legislation.
(1913-1914.)

22. Statement No. 14—*Acts of the Governor General in Council affecting Coorg*.—No Act was extended to Coorg under the Scheduled Districts Act during the year. The Coorg Noxious Weeds Regulation, I of 1914, was promulgated under Statute 33, Victoria, C. 3.

Police.
(1913.)

23. Statements Nos. 15 and 16—*Cognizable crime*.—The number (573) of cognizable offences reported was 17 more than in the previous year. There was a rise under breaches of special and local laws, but there was a decrease under minor offences against property. Police investigation was refused in 14 cases.

24. The percentage of convictions obtained in cognizable cases investigated by the police was 85.18 against 84.52 in the previous year. Of 661 persons arrested by the police, 433 were convicted, the figures for 1912 being 628 and 440 respectively.

25. Eleven cases of murder were dealt with during the year. Four ended in conviction, one was referred as mistake of fact, two were undetected and the remaining cases were pending.

26. Four cases of culpable homicide were reported during the year. Convictions were obtained in all of them.

27. Three cases for preferring false charges were dealt with during the year. In two cases convictions were obtained and in one the accused was discharged.

28. Statement No. 19—*Property stolen and recovered*.—The recovery of property was not so good as in the previous year, the percentage being 46.38 as against 70.61.

29. Statement No. 20—*Sanctioned strength and cost*.—The total expenditure was Rs. 59,591 against Rs. 52,577 in the previous year. Of the excess of Rs. 7,014 over last year Rs. 3,222 is debitable to "miscellaneous refunds" and "refund of advances." Deducting this amount the actual increase in expenditure comes to Rs. 3,792 due mainly to the entertainment during the year of four

additional sub-inspectors who were under training at Vellore, to promotions to higher grades of inspectors and sub-inspectors and to increments granted to head-constables and constables.

30. Statement No. 21—*Equipment, discipline, and internal management.*—The actual strength of the police was 239 against 227 in the previous year. One sub-inspector was enlisted and was sent to Vellore for training. Ten out of twelve stations were in charge of sub-inspectors. Four policemen were punished judicially and 98 were dealt with departmentally as against 104 in the previous year. One man was dismissed during the year. The conduct of the police force on the whole was satisfactory. The number of men who are literate in Canarese was 233 against 222 in 1912. The training school at Mercara was open throughout the year for the instruction of recruits and sixteen men passed through it. The number of Coorgs in the department was 138 against 133 in the previous year.

31. The number of processes issued during the year was 10,490 against 8,499 in 1912; of this number 36 were pending execution at the close of the year.

32. Twelve suicides were reported as compared with 5 in the previous year and the number of accidental deaths fell from 53 to 30.

33. Mr. E. H. Sullivan reverted to the Madras service and Mr. C. A. Lidbury was in charge of the department from 21st May 1913.

34. Statement No. 23—*Number of criminal courts and trials conducted.*—Criminal
Mr. R. H. Ellis, I.C.S., held the post of District Magistrate throughout the Justico.
year. There were no permanent changes in the personnel of the subordinate (1913.)
magistracy.

35. Statement No. 24—*Particulars regarding the trial of offences.*—The number of cases brought to trial (2,964) was 698 more than in the previous year, while the number of offences reported (3,143) increased by 654. Under the Workman's Breach of Contract Act, 1,547 cases involving 1,547 persons were instituted as compared with 1,067 cases in 1912. Excluding cases of this class the criminal trials during the year resulted in the discharge or acquittal of 1,216 persons and the conviction of 885. The percentage of convictions was thus 41.65 compared with 38.95 and 38.91 in the two previous years. Excluding petty cases of hurt, assault, mischief and insult, most of which are only technically criminal, the percentage of persons convicted comes to 67.54 against 69.99 in the previous year. Offences against public tranquillity and justice numbered 35, those against the person 362, and those against property 229, while there were 136 other offences under the Indian Penal Code, and 2,202 breaches of special and local laws. Petty cases under the Police Act showed an increase (308 as against 281), and also cases under the Arms Act (135 as against 42), Excise Act (82 as against 60), and municipal by-laws (59 as against 38). The number of offences against property was 229 against 230 in the previous year. Thirteen persons were found guilty of offences classed as heinous crime. Of these, three were convicted of murder, one being hanged and the other two transported for life.

There were no cases of opium smuggling during the year, nor were any proceedings taken under the Indian Press Act.

36. Statement No. 26—*General result of criminal trials.*—The average duration of each case was 7 days in the District Magistrate's court and 11 days in the subordinate courts.

37. Statements Nos. 27 to 31—*Punishments inflicted by various courts.*—One person was sentenced to capital punishment and two to transportation for life by the Sessions Judge. Whipping was awarded only in one case. As stated in previous years' reports the decrease in this form of punishment is chiefly due to the withdrawal of whipping powers from the second class magistrates. The amount of fines imposed and of compensations paid was Rs. 7,494 and Rs. 164 respectively as compared with Rs. 9,212 and Rs. 375 in the previous year. The percentage of realizations was 90.

38. Statement No. 32—*General result of the trial of European British subjects.*—One European British subject was brought to trial for an offence under section 32 of the Indian Arms Act and was convicted.

39. Statement No. 33—*Result of appeal and revision.*—Seventeen appeals were preferred before the District Magistrate. In five cases the sentences were reversed and in another reduced. In one case in which eight persons were involved, sentences were reversed in respect of two and confirmed in respect of the other six. Eighteen cases were dealt with by the Sessions Judge. Sentences in three cases were reduced and in two reversed. The Judicial Commissioner received three appeals against convictions. The sentence in one case was confirmed and the other two were pending at the end of the year. There were in all 30 applications for revision as compared with 23 in the previous year. Of these, eight were preferred to the Judicial Commissioner who, in six cases, upheld the orders passed, enhanced the sentence in one and quashed the proceedings in another.

40. Statement No. 34—*Juries and assessors.*—Trials before the Sessions Court were conducted with the assistance of assessors.

41. The records and registers of all subordinate courts were inspected by the District Magistrate during the year.

Prisons.
(1913.)

42. Statements Nos. 35 to 62—*Detailed statistical information regarding the administration of the jail department during the year 1913.*—The particulars for the Mercara District Jail and the four lock-ups attached to the taluk offices at Somwarpet, Napoklu, Virajendrapet and Ponnampet, are given separately.

43. The bulk of the jail population is confined in the District Jail and the lock-ups are used only for under-trial prisoners, persons sentenced to periods of imprisonment not exceeding fifteen days, and convicts temporarily detained pending transfer to the District Jail.

Sub-jails.

44. The total number of admissions to lock-ups during the year under report was 348 or 16 more than in the previous year. The number of convicts included in this total fell from 72 to 57, and 46 of these were for transfer to the District Jail. Eleven convicts were confined in the lock-ups as against ten in the previous year. The maximum period of detention in the case of under-trial prisoners was 52 days, the average being 6.52 days. The expenditure on dieting charges per annum per head of average strength fell from Rs. 105 to Rs. 59. The ordinary allowance per man is one seer of rice and five pies' worth of curry stuff.

District Jail.

45. The accommodation available was the same as in 1912. The wards provide for the custody of 151 prisoners of all classes. The largest number in custody on any one day was 83. In the male under-trial ward there was slight overcrowding which was relieved by making use of other wards.

46. Statements Nos. 36 to 43—*Number and disposal of jail population, classification according to religion, age, offences, etc.*—The daily average strength including under-trials and civil prisoners was 58.41 against 66.59 during the previous year. Of the total jail population (351), 189 were convicted prisoners, 145 under-trials and 17 civil debtors. The figures for 1912 were 190, 169 and 11 respectively while those for 1911 were 205, 135 and 17.

47. Sixty convicts were in custody on the 31st December 1912 and 129 were admitted during the year. Of these, 128 were released on the expiry of sentence, two on appeal, sixteen under remission rules, one was transferred, one was transported to the Andamans, one was executed and two died. There were thus 38 convicts in confinement on 31st December 1913.

48. Of the under-trials, 49 were subsequently convicted, 71 were released, 14 were transferred to other jails and 11 remained in custody at the close of the year.

49. Statements Nos. 44 to 49—*Particulars regarding jail discipline.*—The number of offences committed by convicts fell from 30 to 14. Seven offences related to work, five to receiving and possessing forbidden articles, one to assault and one to other breach of jail discipline. The convict who escaped in 1902 and the two convicts who escaped in 1905 have not been re-arrested. No corporal punishment was inflicted during the year. Of the total number of jail offences 19.31 per cent. were committed by habitual offenders whose proportion to the entire jail population was 14 per cent. It is interesting to note, however, that 63.64 per cent. of the habituals, 13.33 per cent. of the twice convicted but only 8.07 per cent. of the ordinary prisoners were so punished. Prisoners of the habitual class were kept, as usual, in cubicles at night, and in separate gangs at meal time, and were not appointed to the post of maistry. Sixteen convicts were released under the remission rules during the year, the maximum remission earned being 260 days by a convict under sentence of imprisonment of seven years. Eleven were awarded special remission for having committed no prison offences whatever during the year.

50. Statements Nos. 50 to 53—*Scales of diet.*—Diet was, as usual, supplied departmentally in accordance with the authorized scale and the result was satisfactory. The quality of food was good and the quantity sufficient to keep the prisoners in good health. The daily cost per head was three annas and one pie or six pies more than in the previous year. The increase was due to the price of food-grains being higher during the year. The gross outlay on the articles of food was Rs. 3,965 against Rs. 3,861 in the preceding year. On account of the small jail population, however, there remained at the close of the year provisions to the value of Rs. 620 out of the stock purchased during the year under report.

51. A sum of Rs. 262 was spent in purchasing clothing for the prisoners.

52. Statements Nos. 54 to 56—*Detailed statistics of health.*—Water is supplied from the Mercara reservoir. Conservancy and drainage arrangements were adequate and satisfactory. The health of the prisoners was not as good as in the previous year. There was an increase in the number of cases of dysentery and malaria and the rate of sickness per mille rose in consequence from 11.26 to 19.00. There were two deaths among the convicted prisoners, one was due to anæmia and debility and the other to chronic diarrhœa due to ankylostomiasis.

53. Statement No. 57—*Gain and loss in weight of the prisoners.*—Of the 151 convicts discharged from jail, 76 had gained in weight while 47 had lost, the variations in the case of 33 of the latter being under 5 lbs. No convicts were released on medical grounds.

54. Statement No. 58—*Expenditure on guarding and maintaining prisoners.*—The gross expenditure was Rs. 11,169 against Rs. 10,906 in the previous year. The increase in expenditure was due to the rise in the price of food-grains, to the adjustment during the year of the cost of medicines supplied by the Storekeeper with the Government of Madras and to the purchase of clothing and bedding for the prisoners.

55. Statement No. 60—*Employment of convicts.*—The work of the prisoners was, as usual, carefully arranged with reference to class, sex and health. The in-door labour consisted chiefly of grinding ragi, laundry work and carpentry.

56. Statement No. 61—*Net cash earnings of convicts.*—The total receipts from jail manufactures was Rs. 2,452 against Rs. 2,868 in the previous year. During the year the convict population was much smaller than in the previous years being the lowest on record. This materially reduced the receipts under jail manufactures and convict labour hired to the Public Works Department. The expenditure on materials amounted to Rs. 796 against Rs. 1,822 and the net profit to Government was thus Rs. 1,656 as compared with Rs. 1,046 in the previous year. Taking this profit into consideration, the net expenditure was Rs. 9,513 against Rs. 9,860 in 1912 but owing to the smaller number of convicts the average cost per prisoner rose from Rs. 1.48 to Rs. 1.62.

57. The jail was periodically inspected by the local official visitors. Captain W. R. J. Scroggie, I.M.S. was in charge till 13th May 1913 and was succeeded by Lient.-Colonel J. L. Macrae, I.M.S.

Civil Justice.
(1913)

58. There was no change in the number of Civil Courts (five) or their jurisdiction.

59. Statement No. 63—*Number and description of suits instituted.*—The number of suits filed (2,682) was more than that of the previous year by 31. This is the highest figure during the past decade.

60. Statement No. 64—*Number and value of suits instituted.*—The total value of suits was Rs. 2,47,045 or 1.26 per cent. more than in the previous year and the average value (Rs. 92) was the same as in the previous year.

61. Statement No. 65—*General result of the trial of original cases.*—The number of cases decided was 2,735 as against 2,696 in 1912 and the arrears fell from 359 in the previous year to 306 in the year under report. The number of suits decreed *ex-parte* was 1,329 of which 22 were restored to file. Out of twelve applications for review of judgment two were granted. Six applications to sue *in forma pauperis* were received, of which one was granted, four were rejected and one was pending at the close of the year.

62. The total number of witnesses who attended the courts was 1,886 as against 1,990 in 1912. Fifty-eight witnesses were detained for more than three days, while 1,636 were discharged on the first day of attendance.

63. Statement No. 66—*General result of the trial of miscellaneous cases.*—Including 59 pending at the close of the previous year the number of miscellaneous applications before the courts was 645; of these, 588 cases including 43 applications under the Guardian and Wards' Act, 1890, and one for probate and letters of administration, were decided.

64. Statements Nos. 67 and 68—*Regular and miscellaneous appeals.*—The total number of regular appeals including thirteen pending at the close of the previous year was 45 as against 49 in 1912; of these, four were successful, three modified and one was remanded. There were nine miscellaneous appeals as

against eleven in the previous year and one was successful, one modified and one remanded. Nine appeals out of eighteen including two pending at the close of the year 1912, were decided by the Judicial Commissioner and in three cases the orders of the lower court were upheld. There were no miscellaneous appeals during the year under report.

65. Statement No. 69—*Particulars of execution proceedings.*—The number of cases filed was 3,290. In 61·24 per cent. of those before the courts no recovery was effected. Since the close of the year under report, under the provision of section 67 (2) of the Code of Civil Procedure, 1908, as amended by Act I of 1914, all immoveable property except such as shall have been specifically pledged as security has been exempted from attachment or sale in execution of decrees of Civil Courts in the province.

66. Statement No. 70—*Results of insolvency applications.*—Of the 25 applications including two pending from last year, nineteen were rejected, and one was granted; five were pending at the close of the year.

67. The total number of processes issued by all courts during the year was 16,545, the realisation from process fees being Rs. 8,587.

68. The quarterly and annual returns of the subordinate courts were scrutinized by the District Judge, and all the courts were inspected by that officer. There were ten first grade, twelve second grade pleaders and one Barrister practising in the province.

69. Statements Nos. 71 to 74—*Working of the Registration Department.*—Registration.
(1913.) The total number of documents registered rose to 2,933 in the year under report from 2,923 in the previous year which had been the highest number recorded during the past decade. There was an increase of Rs. 33,340 in the value of the property concerned. The total receipts from fees (Rs. 5,244) and the surplus realised (Rs. 1,330) on the working of the department were very slightly less than in the previous year, while the total expenditure increased by Rs. 48. The average surplus for the last ten years has been Rs. 1,305.

70. The number of documents pending delivery at the end of the year was 14 against 22 in the previous year, and the average time taken to register each document was 12 hours. Registration was refused in six cases. There was only one appeal against these refusals. The order was set aside and registration permitted.

71. All the sub-registry offices were inspected by the Registrar and that of the Registrar by the Inspector-General.

72. Statement No. 75—*Constitution of the District Board.*—District Board.
(1913-1914.) The term of office of the nominated members of the Board expired on 31st March 1913. Messrs. A. H. Jackson and J. A. Graham were re-appointed as representatives of the Coorg Planters' Association. The five Subedars were selected to represent the local interest of their respective taluks. As representative landholders Messrs. C. Devayya, B. I. Ganapati, P. Devayya, D. Venkatramana Shetti and M. I. Mandanna were elected in place of Messrs. P. J. Beni Singh, A. Mandanna, R.B., K. Kuttayya, R.B., and Nidtha Subbannayya.

73. Statement No. 76—*Income of the District Board.*—Excluding the opening balance the receipts amounted to Rs. 93,280 as compared against a budget estimate of Rs. 77,200. The receipts include two special grants made by the Government of India during the year, viz., a non-recurring grant of Rs. 2,153 for the improvement of hospitals and medical education and a recurring grant of Rs. 4,668 for improving the pay of the school masters. The income under tolls on roads increased by Rs. 6,285.

74. Statement No. 77—*Expenditure of the District Board.*—The expenditure was Rs. 1,15,028 as against a budget estimate for Rs. 1,12,226.

75. Five new schools were opened during the year bringing the total number of schools to 75 against 70 in the previous year; the attendance rose from 4,387 to 4,740. English was taught in eight schools to 483 pupils against 462 in the previous year.

Out of the total number of 3,462 boys and 1,278 girls attending the schools, 1,987 boys and 911 girls were Coorgs by race. The percentage of children protected from small-pox was 92·72 against 95·31 in the previous year. There were nine schools for the education of Panchamas of whom 214 were under instruction against 222 in the previous year. In five of the schools, caste boys were also admitted.

The total outlay on education was Rs. 27,608 against Rs. 18,760 in the previous year representing a percentage of 29·59 of the total income. The increase is due to the increase in the number of teachers, to the improvement in their pay and to the supply of furniture and was met entirely by an Imperial grant. The ordinary expenditure charged against the direct income of the fund was Rs. 15,590 which represents a percentage of 19·18. The income from school fees was Rs. 3,285 against Rs. 3,270 in 1912-1913.

76. There was no change in the number of local fund dispensaries (6). The total number of out-patients treated was 55,480 against 54,540 in the previous year. In the Somwarpet dispensary 293 in-patients were treated. An in-patient ward for such patients as were prepared to meet the expenses of their own maintenance while under treatment was opened during the year at the Gonikoppal dispensary but only 29 persons availed themselves of it. The principal ailments treated were malaria, dysentery, diarrhoea and diseases of the digestive and respiratory systems.

A temporary dispensary was located at Srimangala for six months during the year with a view to ascertaining the need for such an institution at that place. During this period 3,880 out-patients were treated. The dispensary has since been made permanent.

The gross expenditure on dispensaries including sanitation amounted to Rs. 12,998 as compared with Rs. 10,973 in the previous year.

77. The Sanitary Inspector was engaged in inspecting the municipalities and pettas. He was also on plague duty at Virajpet.

78. The number of travellers' bungalows (4) and of shelter houses for the use of immigrant coolies (4) remained the same as in last year. The fees realised from the bungalows (Rs. 776) failed as usual to cover the outlay incurred in the shape of establishment charges (Rs. 1,142).

The net revenue from tolls amounted to Rs. 22,485 against Rs. 15,222 in the previous year. The increase is due to keen competition at the auction sales. There was no change either in the number (25) or in the working of the ferries and the revenue realised from this source was Rs. 1,526 against Rs. 1,152 in the previous year.

Village communications and bridle-paths were improved at a cost of Rs. 3,802.

79. The grant for public works under the control of the Board was Rs. 70,626 and the expenditure Rs. 62,164. The difference was either surrendered by the Executive Engineer or lapsed to Government as the works on account of which provision was made could not be taken up for want of labour.

80. Under *civil buildings* an expenditure of Rs. 19,430 was incurred on improvements to certain local fund schools and dispensaries and quarters for Sub-Assistant Surgeons. The annual repairs to local fund buildings account for an outlay of Rs. 1,034.

81. As usual the bulk of the expenditure was devoted to communications. On *original* works the gross outlay was Rs. 7,727. The greater part of this amount was spent on the following works :—

- (i) Opening a road from Sidapur to Pollibetta.
- (ii) Constructing a bridge across the Kotail river on the Mercara-Nalknad road.
- (iii) Metalling the first section of the Fraserpet-Sidapur road.

Under 'minor works' a sum of Rs. 7,859 was spent on the construction or improvement of petty bridges and drains on lines of communication.

82. The outlay on repairs to communications amounted to Rs. 13,032. This includes Rs. 316 expended on ferries, Rs. 652 on bridle-paths, Rs. 832 on travellers' bungalows and Rs. 251 on toll-gates.

The length of communications maintained during the year was 167 miles and 2 furlongs of which 9 miles and 7 furlongs were metalled and 157 miles and 3 furlongs unmetalled. The roads under the control of the Board were kept in order at an average cost of Rs. 63 per mile including the upkeep of bridle-paths.

83. Under miscellaneous public improvements a sum of Rs. 1,686 was spent, the major portion being on wells at Sanivarasante and Murnad and cattle pounds at Hudikeri, Katteपुरa and Banavara.

84. The balance of the public works expenditure represents the usual charges on account of establishment (Rs. 10,653), and tools and plant (Rs. 743).

85. Statements Nos. 78 to 80—*Constitution, income and expenditure of Municipal municipalities*.—The by-laws for the Mercara Municipality framed under the Coorg Municipal Regulation, 1907, were brought into operation during the latter part of the year under report. (1913-1914.)

Mercara Municipality.

86. The term of office of the elected and nominated members of the Mercara Municipality expired during the year. Of the ten members two were nominated by the Chief Commissioner in the interests of the European and Muhammadan Communities and the remaining eight were elected as representatives of the Coorg, Hindu and Muhammadan population. Mr. Pandanda Appachu was appointed Vice-President for one year with effect from the 1st November 1913 in the place of the Subedar of the Mercara Taluk. At the 12 meetings held during the year, the average attendance of the ex-officio and non-official members was respectively 3 out of 4, and 6.75 out of 11.

87. The actual receipts of the year including the opening balance of Rs. 28,099 amounted to Rs. 62,031 and the expenditure to Rs. 42,627 leaving a closing balance of Rs. 19,404. The gross demand, including an outstanding balance of Rs. 249, was Rs. 35,129. The collections and remissions (Rs. 85) amounted to Rs. 34,017 leaving an uncollected balance of Rs. 1,112 at the close of the year.

88. The most important items of expenditure were Rs. 2,991 under conservancy, Rs. 1,047 on the maintenance of roads, Rs. 11,099 on water-works, Rs. 424 on lighting, Rs. 547 on the eradication of lantana, Rs. 404 on the repair of side drains, Rs. 5,000 on the drainage of swamps round Mercara and Rs. 9,201 on improvements to the Gowli bazaar and the "Coronation Garden".

89. A special non-recurring grant of Rs. 25,000 was made by the Government at the close of the previous year for sanitary purposes. This amount having been found to be insufficient an additional similar grant of Rs. 15,000 was received during the latter part of the year under report. The works undertaken with these funds and the progress made towards their completion have been described in detail in paragraph 192 *infra*.

Virajendrapet Municipality.

90. There was no change in the composition of the Committee. The average attendance at the nine meetings held during the year was 8.3 in the case of official, and 5.3 in the case of non-official members, the total strength being five and nine respectively.

91. Including an opening balance of Rs. 10,008 the gross receipts aggregated Rs. 18,727 and the expenditure Rs. 10,818 leaving a closing balance of Rs. 7,909. The total demand under all heads of revenue, including an outstanding balance of Rs. 49 at the beginning of the year was Rs. 8,818: of this, Rs. 8,749 were collected leaving a balance of Rs. 69 at the close of the year.

92. There was an outbreak of plague in the town during the year: 12 persons were attacked of whom 8 died. Necessary precautions were taken to check the epidemic the whole town was disinfected and a sum of Rs. 1,063 was spent, mainly in disinfection of houses but a considerable portion of that will eventually be recovered from the more well-to-do house owners.

93. The progress of the tailoring institution which was started in 1912 is fairly satisfactory. The primary school for Pancharnas continued to show steady progress. The erection of a new Hindustani school and the sinking of probably three wells to improve the water-supply of the town is being carried out. A site has been acquired for the school and the work will be completed during the present year.

Notified Areas.

94. The only change in the composition of the Committee of the Fraserpet notified area was consequent on the death of Mr. E. Rangachari, one of the members. Mr. Qadir Badsha Sahib was appointed in his stead. The average attendance of members at the four meetings held was 4.3, the total strength being eight. The income of the year, including the opening balance of Rs. 885, amounted to Rs. 1,849 and the expenditure to Rs. 1,237. The important items of expenditure were Rs. 525 for the construction of market stalls, Rs. 443 under conservancy and Rs. 126 under lighting. The closing cash balance was Rs. 612.

95. The Somwarpet Committee held five meetings at which the average attendance of members (7) was 5.8. The income of the year, including the opening balance of Rs. 1,654, amounted to Rs. 4,591 and the expenditure to Rs. 3,107. The important items of expenditure were Rs. 742 for the construction of additional market stalls, Rs. 666 under conservancy, Rs. 635 for the construction of side drains, Rs. 300 for the maintenance of roads, Rs. 153 under lighting and Rs. 123 for the repair of Anékeré tank. Excluding Rs. 700 held in Government securities, the cash balance at the close of the year was Rs. 1,484.

96. At the four meetings held by the Kodlipet Committee, the average attendance of members was 5.7, the total strength being six. The income of the year, including the opening balance of Rs. 593, amounted to Rs. 1,673 and the expenditure to Rs. 797. The important items of expenditure were Rs. 372 under conservancy, Rs. 109 under cattle pounds and Rs. 54 under lighting. The closing cash balance at the end of the year was Rs. 876.

(Volunteering.)
(1913-1914.)

97. The total strength of the Coorg and Mysore Rifles on the 31st March 1914 was 250. The command was held by Lient.-Col. G. R. Pearce, V. D., from 1st to 19th April 1913 and by Captain Talbot Cox, V. D., from 20th April 1913 and the adjutancy by Captain W. B. Roberts of the 101st Grenadiers throughout the year. Camps of exercise were held as follows:—For A and B Companies at Fraserpet in September 1913; for C and D Companies at Chickmagalur in October 1913; for E Company at Shimoga in March 1914.

IV.—PRODUCTION AND DISTRIBUTION. (1913-1914.)

98. Statement No. 3—*Rainfall and climate*.—The season was on the whole favourable for wet and dry crops, but the scanty and unequal distribution of rain in the latter part of the cultivation season greatly affected the outturn in some places, particularly in the northern hoblis of Nanjarajpatna taluk. The cardamom crop was about the average. The coffee crop on European estate was above the average. Some estates did exceptionally well, and the crop on the whole was the best that has been obtained for some years past. Indian estates did not do quite so well. The total number of rainy days in 1913 was 114 with a rainfall of 108.99 inches as compared with 133.49 inches in 1912.

Character of the seasons.

99. Statement No. 81—*Area under crops*.—The total area under cultivation was 138,205 acres against 140,253 acres in the previous year. Including the second crop cultivation (529 acres) the area under rice was 82,500 acres, giving a percentage of 81.79 to the gross wet holdings, viz., 100,867 acres as compared with 82.79 in 1912-1913. The total area of dry holdings was 21,938 acres and the extent actually cropped was 7,615 acres, which includes 303 acres of second crop cultivation. As compared with the previous year, there was a decrease of 1,236 acres in the area under dry crops attributable to insufficient rain in August and September. The gross area under coffee tenure was 94,880 acres, which includes (a) 9,356 acres of *ryotwari* cardamom *malés*, (b) 1,371 acres of orange gardens, (c) 37,963 acres of abandoned coffee or land granted for coffee but not planted and (d) 4,114 acres planted with rubber. There is thus a net area of 42,076 acres under actual coffee cultivation as compared with 42,510 acres in the previous year: the decline of 434 acres is due to the abandonment of deteriorated gardens. In addition to the area shown under (d) *supra* 2,745 acres are cultivated with rubber and 114 acres with *agave*.

Area under cultivation and cropped area.

100. The estimated area under cardamom is 2,336 acres, made up of (a) *jama malés* (387 acres), (b) leased *malés* (1,356 acres) and (c) coffee assessed *malés* (593 acres); the aggregate holdings under these heads being respectively 9,012, 50,170 and 9,356 acres (total 68,538 acres).

101. The 4,510 acres shown as "fruits and vegetables" include 4,277 acres of orange gardens of which 1,371 acres are cultivated in the area held under coffee tenure referred to in paragraph 99 *supra*. The extent of pepper cultivation as a by-product on lands held under coffee tenure is returned as 7,572 acres and that on other holdings as 1,138 acres.

102. The area irrigated from Government channels and tanks was respectively 2,427 and 1,692 acres against 2,610 and 1,750 acres in the previous year.

Irrigated area.

103. Statement No. 82—*Rates of rent and produce*.—The rice and *ragi* crops were much below normal. The coffee crop was about the average, the estimated outturn being 3,682 tons as compared with 2,516 tons in 1912-1913.

Outturn per acre and total produce.

104. Statements Nos. 83, 93, 94, 95 and 96—*Prices, imports, exports, coinage and paper currency*.—The prices of rice and *ragi* were in consequence of short outturn higher than those of the previous year. The price of coffee was normal though a slight fall is noticeable when compared with that of 1912-1913. The import and export figures are for the most part compiled from information supplied by the toll-gate contractors and cannot be relied upon; nor is it possible to draw any inference as to the state of trade from the prescribed returns of coinage and paper currency.

Prices, trade and stocks.

105. Statement No. 85—*Live-stock*.—This is a quinquennial return. The figures were compiled for the year 1909-1910. The total mortality among cattle from all causes was 7,431 against 5,776 in the previous year. Of this number, 681 were reported to be due to foot and mouth disease and 531 to anthrax. There were no cases of rinderpest.

Agricultural stock.

106. Statements Nos. 86, 87, 88, 89, 90, 91 and 92 —*Cost of the Veterinary Department, etc.*—Including fifteen elephants of the Forest Department, the number of animals treated by Veterinary Assistants on tour was 1,945 while 1,832 were attended to as out-patients at the dispensaries as compared with 1,298 and 1,572 in the previous year. The special work attended to by the Veterinary Assistants consisted of (a) delivering lectures to ryots and cattle owners on matters relating to the treatment of diseases and the management of cattle in general, (b) examining cattle on behalf of the Co-operative Cattle Insurance Societies and (c) the periodical examination of the stage coach animals belonging to the mail tonga service. The total receipts and expenditure of the department were Rs. 159 and Rs. 3,329 respectively. The buildings presented by M.R.Ry. D. Venkataramana Shetti for the location of a veterinary dispensary at Somwarpet was formally opened by the Honourable the Chief Commissioner of Coorg on the 3rd February 1914. The general supervision of the department was, as in previous years, vested in Mr. Gustav Haller.

Condition of the
agricultural
population.

107. Statement No. 84—*Prices of Labour.*—The labour market was well supplied. There was no diminution in the rate of hire.

108. The experimental plot at Gonikoppal was given up during the year. That at Sidapur thus became the only plot maintained. Experiments were confined to potatoes, gram, maize, oranges, leguminous plants for green manuring and sericulture. Two supervisors were trained in sericulture at the Tata Silk Farm, Bangalore. The total receipts and expenditure, including the cost of erection of buildings for silk worm experiments, amounted to Rs. 457 and Rs. 2,854 respectively.

Forests

109. The area of the reserved forests was reduced during the year by the disafforestation of 50 acres of the Nidtha forest reserve known as the Kabbe hola paisari in North Coorg (by Chief Commissioner's Notification No. 53, dated 5th June 1913) and of 5 acres of the Brahmagiri ghât reserve (by Chief Commissioner's Notification No. 66 of 20th August 1913). The area at the close of the year was 333,002 acres.

110. Seven hundred and six old cairns were repaired at a cost of Rs. 99. A sum of Rs. 25 was also spent in demarcation. The total cost under this head was Rs. 124.

111. The existing roads and buildings were kept in repair at a cost of Rs. 2,165 and Rs. 3,550 respectively. The road up the Barapolé valley was continued, and at the end of the year about $2\frac{1}{2}$ miles had been partly constructed. The first mile is complete except for the bridges. Labour was very scarce, or more work would have been done. The drag paths mentioned in last year's report were continued. About 18 miles of a bridle-path along the eastern slopes of the ghâts were constructed from near Bhagamandala to Nalknad Palace, and about 3 miles of a bridle-path from Irpu temple to the top of the Brahmagiri hills were constructed. Several traces were made for further bridle-paths in the hills.

112. The subordinates' quarters referred to in last year's report at Nagerholé, Dubaré and Gaddigé were completed during the year. New quarters were also partly constructed for one forester and four guards at Karmad, for three guards at Kutompolé and for two guards at Matré. The construction of the bungalow at Hebbalé referred to in last year's report was completed and a new bungalow was partly constructed at Matré.

113. The number of offences reported during the year was 31 against 32 in the previous year. Of these four were compounded on payment of compensation by the delinquents, and in ten cases the offenders were let off with a warning. In the remaining seventeen cases prosecutions were instituted of which fifteen ended in conviction, one in acquittal and one was pending at the close of the year. Both the cases which were pending at the close of the previous year ended in conviction of the offenders.

114. There were thirteen forest fires affecting 1,923 acres against 21 covering an area of 3,004 acres in the previous year. Three of these were attributed to incendiarism, eight were caused by accident or through carelessness in burning. The causes of the remaining two are unknown.

115. The prescribed areas were as usual open to grazing and the revenue realised including the sale proceeds of grass amounted to Rs. 1,086 as against Rs. 1,244 in the previous year. Free grazing was permitted to persons who enjoy a customary right to it.

116. Fifty acres were sown with sandal seed at Murkal in the Hatgat Range, 50 acres near Anéchowkur in the Mawkal Range, 50 acres at Minkolli in the Cauvery Range and 50 acres near Kargode in the Sandal Range. 75 bamboo clumps were burnt in South Coorg, and sown with teak, biti and honne seed, and 1,056 blanks caused by the felling of trees were sown with seeds of the same species. Four hundred and fifty-five acres where bamboos had flowered in South Coorg and Dubaré were burnt and sown with teak seed. Seeds of ever-green species were sown along the streams in the coupes in South Coorg, and in some of the teak kumris. Recent kumris were weeded. The total expenditure under this head was Rs. 11,121 as against Rs. 7,223 in the previous year.

117. The campaign against lantana was continued with vigour. Local labour having in the previous year been found so unsatisfactory most of the work was done on contract. In reserved forests 1,984 acres were cleared at a cost of Rs. 13,386, and 651 acres of paisaris were cleared at a cost of Rs. 5,181. In reserved forests the lantana on 369 acres, and in paisaris that on 290 acres was cut and burned at a cost of Rs. 780, and Rs. 1,570 respectively. The regrowth on 955 acres of reserves, and on 361 acres of paisaris was uprooted at a cost of Rs. 1,879 and Rs. 690 respectively. In addition to these sums Rs. 2,560 were spent on temporary establishment, on uprooting scattered bushes of lantana in plantations, erecting sheds for coolies, purchase of tools and other miscellaneous works. The areas on which lantana was uprooted were as follows:—

	Acres.		
Nalkeri and Hatgat forests	58
Mawkal coupe 1	500
Near Mattigodekeré	21
Balumani sandal plantation	48
Anékad forest	1,058
Dubaré Forest	11
Nidtha forest	47
Kutompolé teak plantation	141
Mercara plantations	100
Paisaris near Fraserpet	590
Paisaris south of Kargode	61
Total	2,635

118. The quantity of timber felled departmentally in reserved forests was 228,968 cubic feet against 161,433 cubic feet in the previous year. The increase was due partly to the larger area of the coupes under the prescriptions of the new working plan and partly to the exceptionally large stock of timber in one of the coupes. The timber felled by purchasers was 112,500 cubic feet as against

116,760 cubic feet. 200 tons of sandalwood were collected at an average cost of Rs. 26 per ton of which 144 tons were sold and realised Rs. 1,40,880, the average price per ton being Rs. 978 the highest on record. The number of bamboos and reeds removed was 104,575 and 46,200 against 181,525 and 59,550 in the preceding year.

119. The revenue realised from cardamoms was Rs. 19,766 against Rs. 18,505, and that from minor forest produce Rs. 4,220 against Rs. 3,723 in the previous year.

120. A sum of Rs. 4,515 was recovered on account of timber growth on the lands newly taken up for cultivation against Rs. 10,105 in the previous year, the total number of valuations made by forest officers being 44 as against 120 in the preceding year.

121. No free grants were made during the year.

122. Four elephants fell into pits one of which a young animal had to be shot owing to its having broken or dislocated a leg. The other three are in good condition and one of them is a particularly fine animal. One of the elephants captured in the previous year died. The cost of the capture and training amounted to Rs. 982 against Rs. 680 in the preceding year.

123. Including receipts in foreign treasuries and book adjustments the total revenue and expenditure of the year amounted respectively to Rs. 3,29,226 and Rs. 1,78,463 and the net surplus realised was Rs. 1,50,763.

124. Mr. H. Tireman continued to be in charge of the department throughout the year and Mr. E. M. Crothers, Extra Assistant Conservator in charge of the Sub-division.

Mines and
quarries.

125. There are neither Act-mines nor non-Act mines in Coorg. Granite and laterite are worked out from small quarries for the purpose of metalling roads but no account of the quantity raised is kept. A large quantity of clay is used for making bricks.

Manufactures.

126. There are no factories in Coorg and manufactures in the ordinary sense of the term are locally unknown.

Public works.

127. The revenue credited to Imperial Public Works amounted to Rs. 8,827 and was realised chiefly from the sale of old materials, rent of buildings and hire of tools by contractors; Rs. 48 appertained to "Military" and the balance to civil receipts.

128. Including charges debited to Military works and outlay on stock not charged against any sanctioned works, the expenditure for the year aggregated Rs. 2,84,496 against the grant of Rs. 2,94,240.

(Military.)

129. A sum of Rs. 932 out of a grant of Rs. 1,100 was spent on improvements and repairs to the quarters of the Sergeant-Instructors at Pollibetta, Chickmagalur and Saklespur, and the work of remodelling the Sergeant-Major's quarters in the Fort, Mercara, was also put in hand.

130. The expenditure on civil buildings was Rs. 69,347 against a grant of Rs. 69,084. The major works undertaken were :—(a) purchasing and improving “Fair View” for the residence of the Civil Surgeon, Rs. 1,335 (total cost Rs. 13,758), (b) constructing quarters for the Head Master, Central High School, Mercara, Rs. 4,406 (total cost Rs. 19,313), (c) purchasing and improving “Rose Bank” for the residence of the Assistant Superintendent of Police, Rs. 1,858 (total cost Rs. 10,558), (d) remodelling the first floor of the Commissioner’s Revenue and English offices in the Palace, Mercara, Rs. 3,663 (total expenditure Rs. 7,075), (e) constructing quarters for the Forest Sub-Divisional officer at Virajpet, Rs. 2,849 (total cost Rs. 7,839), (f) constructing a Model School at Virajpet, Rs. 3,507 (total cost Rs. 4,425).

(Civil)
Buildings.

131. On minor works a total expenditure of Rs. 38,108 was incurred. Rs. 13,659 were spent on repairs to civil buildings.

132. The outlay on communications aggregated Rs. 1,33,457 against a grant of Rs. 1,40,785. The expenditure on original works was Rs. 33,816 against a grant of Rs. 39,250. The major works in progress were :—(i) metalling the fifth and sixth miles of the Fraserpet-Sirangal road (Rs. 2,426), (ii) metalling the worst portions of the Gonikoppal-Wynaad road (Rs. 2,553), (iii) constructing a bridge at 131/6 of the approaches to the Perambadi ghât (Rs. 5,612), (iv) reconstructing the Katakari bridge at 167/8 on the Sampaji ghât road (Rs. 347), (v) raising the Mercara-Perambadi road on the south margin of the Cauvery at 12/5 and 6 (Rs. 199), (vi) providing Horbury’s steel flooring for the bridges at 136/1 of approaches to the Perambadi ghât (— Rs. 2,370). The construction of the bridges across the Devarakolli stream and the bridge at Madanad referred to in last year’s report were completed at a total cost of Rs. 5,816 and Rs. 5,168 respectively.

Communications.

133. On minor works a sum of Rs. 21,331 were spent during the year.

134. Including the usual outlay on the upkeep of bungalows, cooly lines and bridges, the disbursements on account of repairs amounted to Rs. 99,641. The existing communications were maintained in good order. The length of metalled and unmetalled roads maintained during the year was 198 miles 6½ furlongs and 50 miles respectively.

The average cost of repairs worked out at Rs. 218 as of renewals at Rs. 170 per mile.

135. The rain-gauges at various centres were, as usual, repaired during the year.

136. The grant under irrigation was Rs. 10,000, of which Rs. 4,399 were spent. The work in progress was the construction of the right sluice of Mullar tank. Minor improvements were executed to several tanks in various parts of the province.

Irrigation.

137. The expenditure on establishment and tools and plant was Rs. 72,951.

138. The department remained under the control of the Public Works Department of Madras and attached to the fourth circle, the Superintending Engineer of which continued to be the controlling officer and professional adviser to the Chief Commissioner.

139. Mr. A. G. Romilly held the office of Executive Engineer throughout the year.

V.—REVENUE AND FINANCE. (1913-1914.)

Imperial Revenue and Finance.

Gross Revenue.

140. The gross demand under all heads of Imperial revenue was Rs. 9,15,444 against Rs. 8,60,721 in the previous year. The important increases were under Land Revenue (Rs. 6,247), Forest (Rs. 13,284), Excise (Rs. 19,482), Stamps (Rs. 10,324) and Postage Labels (Rs. 3,886). The causes for increases under Land Revenue and Excise are given in paragraphs 5 and 147 respectively; the increases under Stamps and Postage Labels are due to improved sales, while that under Forest is attributable partly to the high prices realised for timber and sandalwood and partly to the larger quantity of timber in reserved forests felled for sale.

141. Statement No. 97—*Gross and net revenue.*—The gross receipts (Rs. 9,31,724) exhibit an increase of Rs. 61,762, as compared with those of 1912-1913, the most noticeable items being under Land Revenue, Forest, Excise, Stamps, Postage Labels and Public Works. The increase under the last mentioned head, viz: Public Works is fictitious as the receipts were swelled by the credit of Rs. 15,000 the contribution paid by the Mercara Municipality for carrying out works in connection with the water-supply and the draining of swamps. The expenditure charged against income being Rs. 3,38,956, the net receipts were Rs. 5,92,768 as compared with Rs. 5,89,519 in the preceding year.

142. Statement No. 98—*Expenditure from net income.*—The expenditure charged against net income aggregated Rs. 5,83,383 or Rs. 39,517 less than in the previous year, the important decreases being under Public Works and Education. The expenditure under Education in 1912-1913 was unusually large owing chiefly to the debit to that head of the special grant of Rs. 38,000 sanctioned by the Government of India for the improvement of elementary education.

143. The net result of the Imperial transactions of the year was therefore a surplus of Rs. 9,385 to which has to be added forest receipts on account of supplies to Government departments adjusted by book transfer and payments made into treasuries outside Coorg, which amounted to Rs. 6,091 and Rs. 1,89,021 respectively, raising the surplus Rs. 2,04,497.

144. Statement No. 99—*Cash transactions.*—The total receipts and expenditure of the year were respectively Rs. 37,87,286 and Rs. 39,03,400 as compared with Rs. 43,96,944, and Rs. 43,01,536 in 1912-1913. The net decreases under both cases occurred chiefly under remittances received from treasuries outside the district and remittances sent out to other treasuries. The closing balance was therefore reduced by Rs. 1,16,114.

Land Revenue.

145. Statement No. 6—*Land Revenue.*—Including the outstanding balance at the beginning of the year, the gross demand amounted to Rs. 4,31,668. The collections and remissions aggregated Rs. 3,61,217 leaving a balance of Rs. 70,451 at the close of the year.

Salt, customs
and opium.

146. No revenue is derived in Coorg from salt or customs and the receipts from the sale of imported opium are included under the head "Excise."

Excise.

147. Statements Nos. 100 and 101—*Excise receipts and charges.*—The receipts amounted to Rs. 2,64,790, as compared with Rs. 2,46,587 in the previous year. The increase was under still-head duty (+ Rs. 6,223), license fees on country liquor (+ Rs. 8,757), toddy revenue (+ Rs. 654), receipts under opium (+ Rs. 310) and ganja (+ Rs. 1,534). The increase under still-head duty was due to larger issues of country liquor from the warehouse and that under the other heads to better bids during the auction sales. The increase under opium is attributable to the enhancement of the issue price.

148. Statement No. 102—*Manufactories, licenses and shops.*—The bonded warehouse is situated at Mercara. The number (4) and location of the wholesale shops remained the same as last year. There was no change in the number (8) of retail foreign liquor shops. The only beer tavern, which is situated at Mercara, did little business during the year. Six arrack shops and seven toddy shops were closed, thus reducing their number from 33 and 88 to 27 and 81 respectively. The realisations from license fees under arrack and toddy were respectively Rs. 50,777 and Rs. 46,678 as compared with Rs. 42,020 and Rs. 46,024 in the previous year. There was no change in the number of opium and ganja shops which stood at 3 and 5 respectively.

149. The question of restraining excessive home consumption of toddy was kept steadily in view. The practice which was in vogue prior to 1909-1910 which encouraged such excessive consumption, is described in detail in the report for 1911-1912. The private tree owner was advised to lease his trees or sell the toddy drawn for cash only to the licensee. He has realised the benefits of this arrangement and it may be said that the former system has almost entirely died out.

150. Statement No. 103—*Duty and consumption of spirits and drugs.*—The contract for the import and wholesale supply of arrack was granted to Messrs. Hajee Ismail Sait and Sons of Bangalore. The duty remained the same, viz., Rs. 3-15-0 per gallon of 30° under proof. The quantity of arrack issued from the warehouse during the year was 39,770 gallons as compared with 37,847 gallons in the previous year.

151. The wholesale supply of opium and ganja was, as in previous years, in the hands of Government. Opium was imported from Madras and ganja from North Arcot. The quantity of opium sold was 54 seers and 54 tolas—a decrease of seven seers and 64 tolas as compared with the previous year. The falling off is apparently due to the decrease in the number of consumers of this drug who are mainly people moving from place to place such as fakirs, traders, etc. The quantity of ganja sold was 843 seers as compared with 740 seers and 69 tolas last year. The increase in the sale of this drug is due to the better quality and price in Coorg as compared with Mysore which leads traders from Mysore to prefer Coorg ganja.

152. Statements Nos. 104 and 105—*Incidence of consumption, and demand, collection and balance of excise revenue.*—The total demand was Rs. 2,65,181 as compared with Rs. 2,45,699 in the previous year. The total incidence of still-head duty and license fees per gallon of London proof was Rs. 7-6-4.

153. Statement No. 106—*Excise offences.*—The number of prosecutions instituted was 72 as compared with 61 last year. The majority of these cases relate to illicit distillation and possession of paddy arrack and to sale of toddy without license. There were no cases of drunkenness on licensed premises during the year and no useful figures relating to drunkenness in general could be collected. A sum of Rs. 2,015 was realised on account of fines out of which Rs. 326 were distributed as rewards to excise and police officers and informants, as compared with Rs. 1,446 and Rs. 218 respectively in the previous year.

154. Statement No. 107—*Working of the Excise Department.*—The subordinate excise staff was under the direct control of the Excise Inspector and the inspection work of the preventive establishment was satisfactory.

155. Statement No. 108—*Wholesale and retail vend of foreign liquors.*—As already stated, the number of retail shops for the sale of foreign liquors remained the same. No wholesale license was issued during the year. The sales show an increase as compared with last year.

156. The location of both arrack and toddy shops was, as usual, regulated with due regard to the opinions of neighbouring planters and ryots, representative local men being consulted in each case.

Stamps.

157. Statements Nos. 109 to 112—*Receipts and charges under Stamps.*—The receipts amounted to Rs. 62,961 and the charges to Rs. 2,633 resulting in a net revenue of Rs. 60,328 as compared with Rs. 51,545. The larger receipts under both non-judicial and judicial stamps account for the increase in the net revenue.

158. Statements Nos. 113 and 114—*Insufficiently stamped or unstamped instruments and stamp prosecutions and results.*—The aggregate sum levied in respect of duty and penalty was Rs. 1,431 on 301 documents impounded under the Stamp Act. There was no stamp prosecution during the year.

159. Statement No. 115—*Action taken to test the valuation of estates.*—One case to test valuation of estate for which application for letters of administration had been made was referred to the Collector. As a result of the enquiry instituted thereon Rs. 2,630 being deficit court-fee and Rs. 2,030 on account of penalty were recovered in addition to Rs. 2,082 originally paid on account of court-fee.

Income-tax.

160. Statement No. 116—*Collections of the tax from salaries, pensions, etc.*—The total collections under this head amounted to Rs. 2,933 against Rs. 2,817 in the previous year. The increase is due to new appointments to certain posts with progressive salaries.

161. Statement No. 117—*Realisations from interest on securities.*—The amount collected (Rs. 152) was Rs. 30 less than in the previous year. The following Government securities to the aggregate amount of Rs. 55,700 were exempted:—the Mercara School Endowment Plantation Fund, Rs. 30,000; the Thomson Prize Fund, Rs. 1,300; the Fraser Endowment Fund, Rs. 500; the Proclamation Jubilee Prize Endowment Fund, Rs. 100; the Koravanda Bollavva Nanjappa's Charity Fund, Rs. 5,000; the Kodandera Tangavva Prize Fund, Rs. 1,000; the investments of the civil dispensaries, Rs. 6,000; the municipal committees, Rs. 1,800; and the Coorg District Board, Rs. 10,000.

162. Statement No. 118—*Collections of the tax from all sources.*—The increase of Rs. 116 under salaries, pensions, annuities and gratuities paid by Government has been explained above. No taxable salary or pension was paid by any local authority, nor were there any assessments to income-tax under the head "profits of companies" during the year. There was a decrease of Rs. 642 in the revenue from salaries, etc., paid by companies and private employers and Rs. 146 under "other sources of income" which are attributed partly to balance outstanding and partly to depression in trade.

163. Statement No. 119—*Original and final demand and uncollected balance.*—The final demand under salaries and pensions was Rs. 8,219 as against Rs. 8,098 and the aggregate assessment on other sources of income was Rs. 3,564 as compared with Rs. 3,057 in the previous year. There were in all 35 objection petitions against 21 in the previous year resulting in a total reduction of Rs. 292. Of the final demand under all heads including arrears, viz., Rs. 12,944, all but Rs. 2,109 were collected before the close of the year. Of the balance, a sum of Rs. 1,587 has since been recovered, leaving Rs. 522 for collection.

164. The collections of the tax as usual devolved on the ordinary revenue establishment of the province and no extra expenditure was incurred on the assessment during the year. The First Assistant Commissioner exercised the functions of Collector of Income-tax as in the previous year.

Forests.

165. The total receipts, including a sum of Rs. 1,95,112 realised outside Coorg or adjusted by book transfer, amounted to Rs. 3,29,226, and the charges, as debited in the treasury accounts, to Rs. 1,74,905. The net surplus was thus Rs. 1,54,321 as compared with Rs. 1,18,323 in the preceding year.

Revenue and Finance other than Imperial.

The District
Fund.

166. The gross demand of the District Fund, together with the uncollected balance outstanding at the beginning of the year (Rs. 4,380), was Rs. 99,184. The realisations amounted to Rs. 93,280 and remissions to Rs. 270. The

outstanding balance for collection at the end of the year was therefore Rs. 5,634. With the opening cash balance (Rs. 62,022) the gross receipts of the fund amounted to Rs. 1,55,302 and the expenditure to Rs. 1,15,028 leaving a cash balance of Rs. 40,274, of which a sum of Rs. 10,000 was held in Government securities.

167. Including an outstanding balance of Rs. 626, the total demand of the municipalities and the notified areas amounted to Rs. 49,252. The collections and remissions aggregated Rs. 47,755 leaving an uncollected balance of Rs. 1,497. Together with an opening cash balance of Rs. 41,239, the receipts amounted to Rs. 88,871 and the expenditure to Rs. 58,586. The closing cash balance was thus Rs. 30,285. Municipal Funds.

168. Including the opening cash balance Rs. (2,152), the income of the fund amounted to Rs. 3,775. The expenditure being Rs. 2,561, the closing balance was Rs. 1,214. The Mercara School Endowment Fund.

VI.—VITAL STATISTICS AND MEDICAL SERVICES.

169. Statement No. 120—*Particulars of births, deaths and marriages in towns.*—The excess of deaths over births is chiefly due to the mortality among the immigrant coolies admitted into hospitals at Mercara and Virajendrapet. Births and deaths. (1913.)

170. Statement No. 121—*Births registered.*—The number of births (4,529) registered was 77 less than in 1912. Of these, 94 occurred in families not permanently resident in the province. Male births exceeded female by 19.

171. Statement No. 122—*Births and deaths registered.*—5,859 deaths (83.48 *per mille*) were recorded against 6,713 in 1912 and 5,695 in 1910; of these, 305 occurred among individuals not permanently resident in the province. The high mortality is chiefly attributable to the prevalence of malarial fever, dysentery and diarrhoea. The death-rate among females was higher than among males.

172. Statement No. 123—*Deaths registered during each month.*—The mortality was, heaviest in the months of April, May, June and July. The healthiest season of the year was the last quarter.

173. Statement No. 124—*Deaths registered according to age.*—Excluding infants, deaths were more numerous in the age groups from 20 to 30 and 30 to 40 which comprised the bulk of the immigrant cooly population.

174. Statement No. 125—*Deaths registered according to class.*—The mortality among Hindus was slightly lower than in the previous year, while the death-rate among Coorgs was 36.80 *per mille* as compared with the general average of 34.89.

175. Statement No. 126—*Deaths registered from different causes in towns and districts.*—As usual, fever caused the greatest number of deaths (4,584), while dysentery and diarrhoea were responsible for 199. The mortality in municipal areas was lower than in the previous year.

176. Statements Nos. 127 and 128—*Deaths registered from cholera and small-pox.*—192 deaths occurred from cholera during the year. The deaths from small-pox fell from 53 to 41.

177. Statement No. 129—*Deaths from fevers.*—There was a decrease of 1,113 deaths under this head as compared with the previous year, the ratio *per mille* being 26.20 against 32.56. The mortality was highest in the months of June and July and lowest in December.

178. Statement No. 130—*Deaths from dysentery and diarrhoea*.—The mortality ascribed to this cause was 199 being 32 less than in the previous year.

179. Statement No. 131—*Deaths from plague*.—Plague accounted for 10 deaths against 9 in the previous year.

180. Statement No. 132—*Deaths from respiratory diseases*.—The rate of deaths *per mille* from this cause was 0·41 as compared with 0·43 in the previous year.

181. Statements Nos. 133 and 134—*Ratio of deaths from small-pox, fever, dysentery and diarrhoea and comparative statement of mortality and meteorological statistics with prices of food-grains*.—From the latter return it will be observed that the mortality was lower than in the previous year but higher than in 1909 and 1911.

Emigration and
immigration.
(1913-1914.)
Medical relief.
(1913.)

182. There are no recruiting stations in Coorg and no record is kept of emigration and immigration.

183. Statement No. 135—*Hospitals and dispensaries*.—The Mercara Jail hospital is excluded from this statement as it is dealt with separately. Of the twelve other institutions, three are of a private character and are maintained in the "Bamboo" district by the South Coorg Medical Relief Fund.

184. Statements Nos. 136 to 142—*Accommodation, number of patients treated during the year and the rate of mortality among in-patients*.—There was a decrease of 11,883 in the total number of patients (86,376) treated in the Imperial and local fund dispensaries, while 8,235 against 8,415 in the year 1912 received treatment in the three private institutions in South Coorg. The in-patients all of whom were treated in the public institutions numbered 2,692 or 370 less than in the previous year; the rate of mortality was 9·81 against 12·87.

185. Fifteen persons are shown as having been treated for plague at Virajendrapet and Sidapur in consequence of the slight outbreaks of that epidemic at those places.

186. Sixteen patients suffering from small-pox were treated as compared with twenty-four in the previous year; two of them died. The contagion in most of the cases was traced to persons who had carried the disease from adjoining districts in Mysore and the West Coast.

187. Statement No. 143—*Patients under treatment according to sex and race*.—As in the previous year, the proportion of adult males treated exceeded that of females by more than three to one.

188. Statement No. 144—*Operations performed*.—Operations numbered 1,482 against 1,589 and the percentage of success was 97·38 against 99·12 in 1912.

189. The sale of quinine to the public through the agency of the post offices continued during the year. The number of powders sold was 45,050 as compared with 55,800 in the previous year.

190. Statement No. 145—*Income and expenditure of hospitals and dispensaries*.—Excluding the pay and allowances of the Civil Surgeon and the reserve sub-assistant surgeons which are not debitable to any specific institutions, the total expenditure on medical relief was Rs. 29,619 or Rs. 1,211 more than in the previous year. The increase is due to the cost of medicines being more than in the previous year.

191. Captain W. R. J. Scroggie, I.M.S., was in Medical charge of the Department till 13th May 1913 and was succeeded by Lieut.-Colonel J. L. Macrae, I.M.S.

192. All the *pettas* were inspected during the year either by the Civil Surgeon, who is also the Sanitary and Health officer, the Commissioner or the Assistant Commissioners. The duties of the Sanitary Inspector were mainly confined to the periodical inspection of the municipalities and *pettas*, and the supervision of the meat supply in Mercara, but he was also engaged for a considerable time at Virajendrapet in the supervision of the total disinfection of the town and other preventive measures in connection with plague. The special non-recurring grant of Rs. 25,000 made by the Government of India in 1912-1913 for expenditure on sanitary works in Mercara having been found insufficient an additional similar grant of Rs. 15,000 was made at the close of the year. With these funds the work of laying out the Coronation Garden has been completed at a cost of Rs. 2,578. Flowering plants and ornamental trees have been planted; seats and lamp posts have been provided; and a fountain has been erected in the Garden which has been handed over to the Municipality for maintenance. In the Gowli Bazaar the congested parts have been opened up. Six model quarters and cattle sheds have been built and the swamp which runs through the middle of the bazaar has been drained, at a total cost of Rs. 6,637. The present water-supply being insanitary attempts were made to sink a new well but the work had to be abandoned as a substratum of decomposed rock was reached and the sides began to fall in. The draining of swamps round Mercara is in progress. Rs. 1,784 were spent on the work during the year. The estimates for the improvement of the water-supply of the town have been approved by the Superintending Engineer and the work will be carried out during the present year. It is hoped that with the increased supply thus provided it will be possible to extend the pipe system to the Gowli Bazaar.

193. Statement No. 147—*Sanitary works and comparison of mortality prior and subsequent to the construction of the Mercara water-works.*—As remarked in other years no safe inference can be drawn from this statement as the municipal death-rate fluctuates considerably from year to year with the numbers of immigrant coolies brought to the hospital in a moribund condition. This year owing to the exceptionally long drought the supply became somewhat low towards the end of the hot weather and some inconvenience was experienced in certain localities, but no sickness can be attributed to this cause as the water remained of excellent quality.

194. Statement No. 148—*Summary of vaccination work.*—The number of operations performed was 13,151. Of these 8,728 were primary cases and 4,423 were re-vaccinations against 8,867 and 3,863 respectively in the previous year. The percentage of successful cases was 94.91 and 87.27 respectively compared with 94.63 and 81.84 in 1912-1913. Only calf lymph was used.

195. Statement No. 149—*Cost of the vaccine department.*—There was no change in the establishment which consisted of eight vaccinators. The total cost including supervision charges, amounted to Rs. 2,898.

196. Statement No. 150—*Dispensary vaccination.*—224 vaccinations were performed by the staff of the Jail hospital and the dispensaries of the province compared with 247 in 1912-1913. Of these, 78 were primary cases and 146 were re-vaccinations; the percentage of success was respectively 96.05 and 78.52 compared with 96.61 and 84.80 in the preceding year.

197. Statements Nos. 151 and 152—*Number and result of primary vaccinations during the last decade and verification of vaccinations.*—3.13 per cent. of these cases were inspected by the Civil Surgeon and 46.25 per cent. by the Assistant Surgeon and the Inspector of Vaccination compared with 1.51 and 49.97 respectively in the previous year.

198. Statement No. 153—*Infantile vaccinations in municipal areas.*—From October 1912 to September 1913, 145 infants were born. One hundred and six children under one year old were available for vaccination and the total number vaccinated was 115.

199. Statement No. 154—*Statistics of vaccination and mortality from small-pox during the past fifteen years.*—The number of successful vaccinations was considerably above and the number of deaths from small-pox below the average.

VII.—INSTRUCTION. (1913-1914.)

General system
of public
instruction.

200. The standing information on this subject is printed at pages 33 and 34 of the administration report for the year 1911-1912 under the heading "General System of Public Instruction."

Education—
Preliminary
remarks.

201. There were a few important changes in the educational arrangements of the province during the year under report. With a view to facilitate inspection and to provide an educational adviser in closer communication with the Chief Commissioner of Coorg, Coorg was included in a new circle, known as the Ninth Circle with head-quarters at Bangalore. The educational official, resident in the province, and known as Assistant Inspector of Schools, was raised to gazetted rank, his appointment being included in the Madras Provincial Educational Service. With the more liberal recurring grant-in-aid of Rs. 10,000 sanctioned by the Government of India, the staff and the scale of salaries of teachers in elementary schools have been improved to some extent.

General
summary.

202. Statements Nos. 155 and 157—*General Statistics of attendance*.—On the 31st of March 1914, there were in all 103 public institutions with 7,684 pupils in attendance as against 6,942 during the previous year. Five new local fund schools were established during the year, part of the Imperial grant-in-aid having been utilised for the purpose. The Basel Mission also opened and obtained recognition for four elementary schools. The number of private schools and the attendance in them was 16 and 355 as against 31 and 603 in the previous year. The percentage of pupils under instruction to the total population of school-going age was 21·01 as against 19·71 for the year 1912-1913, the percentage being higher in the case both of boys and girls.

203. The educational institutions in the province consisted of one training school, one upper secondary school and one lower secondary girls' school at Mercara and one lower secondary school at Virajendrapet and 99 elementary schools throughout the province. English was taught as an optional subject in 18 of the elementary schools. These figures exclude the 16 private schools referred to in the preceding paragraph, all of which were elementary. The private lower secondary school at Ammatti continued to exist. This school does not at present fulfil any of the requirements of the Education Department, but it is understood that the management is attempting to collect funds with a view to place the institution on a better footing.

204. Statements Nos. 159 and 160—*Stages of instruction and results of examinations*.—There was a further increase during the year under review in the number of pupils in all stages of instruction, which is noticeable both in the boys' schools and the girls' schools. The results of the examinations are dealt with in paragraphs 213 and 228 *infra*.

205. Of the 103 public institutions at the end of the year, thirteen were managed by Government, seventy-five were under the control of the District Board, five were municipal institutions and ten were aided either by Government or by the District Board, nine of these being missionary institutions.

206. Statement No. 163—*Scholars according to sex, race or creed*.—As usual non-Brahmin Hindus (6,958) formed the predominating element among the school-going population and included no less than 4,656 Coorgs. The number of Coorgs, Brahmins and Muhammadans attending school increased by 223, 59 and 47 respectively. There was no appreciable change in the number of children of other communities under instruction.

207. An examination of the social position of the parents of the children attending public institutions showed that the great majority (78·80) were dependent on agriculture. The percentages recorded as belonging to the poorer, middle and richer classes were 75·54, 22·73 and 1·77, respectively, against 80·19, 18·34 and 0·66 of the previous year.

208. The percentages of pupils protected from small-pox was 94.95 as against 93.96 of the previous year.

209. Statements Nos. 156, 158 and 161—*Expenditure on education.*—The total expenditure on public instruction was Rs. 91,223 during the year as against Rs. 1,09,531 in 1912-1913, the distribution according to the source of income being as follows :—

Financial
summary.

Imperial Funds	58.28
Local Funds	18.61
Municipal Funds	1.72
Fees	15.69
Other sources	5.70

210. The private contributions to expenditure consisted of subscriptions in aid of the mission schools and of the income from the Mercara School Endowment Fund. During the year a total sum of Rs. 613 was disbursed from this fund for scholarships to students studying in professional colleges and secondary schools and for the upkeep of the boarding house attached to the school. The average cost of education of each pupil in the primary and secondary schools was Rs. 5-11-9 and Rs. 54-2-2 against Rs. 7-5-4 and Rs. 58-9-2, respectively, in the previous year. In the Lower Secondary Girls' school, Mercara, the average cost of educating each girl amounted to Rs. 77-2-2 against Rs. 106-12-10 in the previous year, while the cost to provincial revenues amounted to Rs. 37-14-10 against Rs. 43-6-9 in 1912-1913. The average cost of educating each student at the Government Training School was Rs. 212-4-6 against Rs. 178-4-7 in the previous year.

211. The latter part of the year saw the formation of a new educational circle, called the Ninth Circle with head-quarters at Bangalore and comprising Coorg, South Canara and the Civil and Military Station, Bangalore. Previous to this, Coorg was under the control of the Inspector of Schools, Eighth Circle, with head-quarters at Cannanore. Three visits of inspection were paid by the Inspector during the year, the first by Mr. R. Littlehales in May 1913, the second by Mr. H. O. Kershaw in November 1913 and the third in March 1914 by Mr. T. O. Hedges, the Inspector of the newly formed Ninth Circle. The second of the above visits was mainly for the inspection of the secondary and training schools in Coorg, while during the other two visits, a number of elementary schools in the province were visited. The Hon'ble Sir Alfred Bourne, Director of Public Instruction, also paid a visit to the province in the month of October 1913. The Assistant Inspector inspected 126 schools during the year, travelling 1,669 miles and also paid surprise visits to several schools not included in the annual programme. Towards the latter part of the year an additional Supervisor of primary schools was entertained. The elementary schools in Coorg are now divided into sub-ranges among the two inspecting officials of this class. Revenue officers from Subedars upwards paid frequent visits to the schools.

Controlling
agencies.

212. There are no colleges in Coorg, but 10 scholarships of the monthly value of Rs. 10 and Rs. 15 each tenable in the Arts and professional colleges outside Coorg are awarded annually.

Collegiate
education.

213. In the three secondary schools the total attendance rose from 451 to 510, 109 of these being girls. The average number on the rolls was 508 as compared with 449 in the previous year. Twenty-one candidates from the Mercara High School went up for the Secondary School Leaving Certificate examination, and the results were fairly satisfactory being slightly above the average for the Madras Presidency.

Secondary
education.

214. The Central High School, Mercara, is very badly equipped and there is need of a very large expenditure on furniture and apparatus. This is equally the case with the Government English School, Virajendrapet.

215. Mr. S. A. Steele was in charge of the Central High School, Mercara, during the year and also supervised the Government English School, Virajpet. He was assisted by an efficient staff of teachers, most of whom have specialised in the subjects they taught. It is becoming yearly more difficult to procure graduates for the High School, as very few Coorgs take their degrees and hardly any are willing to take up the scholastic profession, with the result that teachers have to be found outside Coorg.

216. The two hostels attached to the Central High School, Mercara, were well filled but are not in a healthy situation. There has been for sometime a proposal to transfer them to a more suitable site but nothing has been definitely settled yet. The Headmaster's new quarters are now occupied by him.

217. There was no issue of the High School Magazine during the year owing to lack of funds but arrangements have been made to issue it during the coming year at the expense of the Old Boys' Society.

218. The Old Boys' Society was re-started during the year and an Old Boys' Day celebrated during which there were athletic sports for past and present students.

219. With the increase of numbers the question of accommodation has become a serious problem. All the available space is fully occupied and any increase in numbers will have to be checked until the new hostels are built.

220. The English School at Virajendrapet continued to be under the management of M.R.Ry. M. Srinivasa Rau, supervised by the Headmaster of the Central High School, Mercara. There were 39 boys residing in the hostel of this school.

221. During the year quinine prophylactic treatment was tried in the two secondary schools and the model primary schools at Mercara and Somwarpet. The Headmaster of the Central High School considers that this measure has been productive of good results, as evidenced by the very small number of cases of fever in these schools.

Primary
education.

222. As shown in paragraph 202 above the number of primary schools increased by nine during the year, and the attendance rose from 6,466 to 7,149. In many of these schools, in addition to the compulsory subjects, geography, nature study, elements of hygiene and outlines of Indian history and civics are taught while garden work, clay-modelling, and other manual occupations are employed both on account of their intrinsic value and as a relief from intellectual work. The school garden has always formed a feature of elementary education in Coorg.

223. In teaching many of the subjects, kindergarten methods are adopted. Schemes of study involving a certain amount of practical work have been drawn up for such subjects as arithmetic, geography, nature study, etc., in the larger elementary schools. With a view to render the teaching of geography more realistic a set of lantern slides on India costing £ 50 prepared by the Visual Instruction Committee of the Colonial office has been recently purchased.

224. Organised games and sports including national dances and exercises are being encouraged in the boys' as well as the girls' primary schools. During the year sports requisites to the value of Rs. 90 were purchased and supplied to the schools.

225. Clay-modelling, rope-making, basket-making, rattan work and similar manual occupations are taught in most of the schools. Regular instruction in carpentry is given in two of the primary schools and in tailoring in the tailoring school attached to the Virajendrapet Hindustani school. More tools and appliances were recently purchased for use in the two former institutions, but in order to equip these schools properly for providing manual training for all the

pupils, a much larger expenditure with more commodious workshops is necessary. During the year an instructor for Sloyd work was appointed in the Government Training School, Mercara, and when the present batch of students is relieved it will be possible to provide more organised instruction in manual work in some of the elementary schools. The weaving school at Sanivarsante continued to work during the year with six students on the rolls, three of them being in receipt of stipends of the value of rupees five each and three of the value of rupees two each. The stipends of lower value are not attractive enough to outsiders, and as there are no suitable candidates in Sanivarsante itself the question of enhancing the value of these stipends is under consideration.

226. The system of village school committees or panchayat was in force during the year and worked satisfactorily.

227. During the year a number of the larger local fund schools were extended and repaired, the total funds spent on these improvements amounting to nearly 34,000 rupees. The scale of salaries of teachers in local fund schools has also been slightly improved, so that it is possible now to give every trained teacher a starting salary of Rs. 10. About 31 additional teachers were also entertained with a view to relieve the congestion in existing schools. The attendance in the schools is however steadily rising and further extensions to buildings and additions to the staff have already become necessary. In order to ensure some flow of promotion to local fund teachers a revision of the scale of salaries is a pressing want. At present many a raw recruit as well as a teacher of some years' standing both draw the same Rs. 10.

228. The only training school in the province is the Government Training School at Mercara, which provides the provincial supply of primary school masters. The teaching staff was strengthened during the year by the entertainment of a Sloyd instructor and a music master. Ten trained students were relieved from the institution on the 31st March 1914 and were provided with appointments. It is not known how many of these passed the Preliminary Test for Teachers' Certificates in March 1914, as the results have not been published.

Training
schools.

229. During the year the value of stipends tenable in the training school was increased, those of Rs. 5 per mensem were raised to Rs. 7, and those of Rs. 7 to Rs. 9. Nine additional stipends of the higher value were also sanctioned. The question of revising the scale of salaries of the staff in the training school is under consideration. M.R.Ry. N. Dasappa continued to be in charge of the school throughout the year.

230. There are no technical schools in Coorg. The weaving school at Sanivarsante and the carpentry and the tailoring schools at Mercara and Virajendrapet are dealt with in paragraphs 225 and 234. A boot and shoe making class for the Panchama at Virajendrapet has been proposed.

Technical
education.

231. There are altogether one secondary and six primary schools (five Government and two aided) exclusively appropriated to girls. The total number of girls in all classes of schools rose from 2,128 to 2,356 during the year. Of these 109 were studying in secondary schools and one was undergoing training in the Government Training School, Mercara. The Lower Secondary Girls' School at Mercara worked successfully during the year, there being 100 girls on the rolls, of whom 46 were boarders in the school hostel. The staff of the Virajendrapet and Parane girls' schools was strengthened by the entertainment of additional mistresses. Money has been budgetted for in the estimates of the current year for a girls' school at Hudikeri. It will be opened as soon as the estimates are sanctioned.

Female
education.

232. There are no separate schools for Europeans and Eurasians in the province.

European
education.

Muhammadan
education.

233. There were two schools intended solely for Muhammadans and maintained by the municipalities at Mercara and Virajendrapet. The attendance of Muhammadans in elementary schools rose from 228 to 291 and in secondary schools from 5 to 7. A recurring grant of Rs. 1,500 was sanctioned by the Government of India during the year for the improvement of Muhammadan education. This amount will be utilised for the appointment of a Urdu teacher in the English school, Virajendrapet, for additional teachers in the Municipal Hindustani schools at Mercara and Virajendrapet, and for increasing the number of Muhammadan scholarships in secondary and elementary schools.

234. The carpentry and tailoring branches attached to the Municipal Hindustani schools, at Mercara and Virajendrapet continued to work satisfactorily. Proposals have been submitted for increasing the number and value of the stipends tenable in these institutions and for the provision of additional accommodation in the workshops.

Special classes.

235. There are ten schools for Panchamas, the Basel Mission having established a new school for them during the year at Balele in Kiggatnad taluk. In three of the above schools caste boys are also admitted. Out of a total of 324 Panchama children, 288 attended the schools for the special classes and 36 attended the caste schools. With a view to encourage the Panchamas to send their children to school, books and slates are given free of cost, and prizes in the shape of cloth are being annually given to the children who have regularly attended school during the year.

Private
institutions.

236. The number of private institutions and the attendance in them diminished from 31 and 603 to 16 and 355 respectively. These institutions call for no special remarks as they are unaided, ill-housed and poorly equipped.

Educational
conferences.

237. Six meetings of the Teachers' Association were held during the year. These meetings were well attended. Most of the teachers gave lectures and model lessons and took part in the discussions held on educational subjects. Several of them also made use of the lending library opened in connection with the association.

238. M.R.Ry. A. Rama Rau Avargal, B.A., Assistant Inspector of Schools, was in charge of the elementary schools throughout the year.

Preparation and
distribution of
text-books.

239. There is a Government Depot at Mercara with five branch depôts, the operations of which are confined to the supply and distribution of text-books to elementary schools. These depôts, however, did not transact any business during the year.

240. There is no Text-book Committee for Coorg.

The Press.

241. Statements Nos. 165 to 170.—*Receipts, expenditure, etc.*—The only printing press in the province is the Coorg District Press at Mercara. Including a sum of Rs. 300 adjusted by book transfer on account of depreciation of plant and type the charges amounted to Rs. 3,832 as compared with Rs. 4,091 in the previous year. The value of the work done for the various offices and the cash receipts were respectively Rs. 3,661 and Rs. 665 as compared with Rs. 4,000 and Rs. 759 in the preceding year. The value of plant at the close of the year was Rs. 9,628.

242. The outturn of composing work done was equal to 2,488 pages of pica solid foolscap folio and the number of impressions printed was 533,000. The cost of composing a page of pica solid foolscap folio was Rs. 0-14-6, while the cost of printing 100 impressions was Rs. 0-3-9, as compared with Rs. 1-0-5 and Rs. 0-3-3 respectively last year.

243. The management of the press which, as usual, devolved on the Foreman, was satisfactory.

Literary
societies.

244. There are no literary societies properly so called in Coorg, but in Statement No. 171 will be found particulars of three institutions which incidentally foster the study of literature through the medium of libraries and reading rooms.

VIII.—ARCHÆOLOGY. (1913-1914.)

245. No action was taken under this head during the year. The question of declaring ancient monuments which are the property of Government to be protected monuments under section 3 of the Ancient Monuments Preservation Act (VII of 1904) has, in consultation with the Superintendent, Archæological Survey Department, Southern Circle, Madras, been kept in abeyance until he can visit Coorg and inspect them. The monuments selected for conservation are in good order. Archæology.

IX.—MISCELLANEOUS. (1913-1914.)

246. The standing information which concerns this chapter is printed at page 39 of the administration report for the year 1911-1912 under the head "Ecclesiastical jurisdiction". Ecclesiastical jurisdiction.

247. Statement No. 172—*Religious institutions*.—There were no changes during the year. A new Roman Catholic Church at Pollibetta is under construction. Ecclesiastical.

248. The total contributions paid by Government to the indigenous religious institutions in the province amounted to Rs. 19,408, consisting of cash payments (Rs. 7,049), deductions from land-revenue demand (Rs. 972) and assignments of land-revenue (Rs. 11,387). Of this sum, Rs. 12,584 forms the endowment of minor temples under the management of the village communities concerned, while the remaining Rs. 6,824 relates to the grants made to the temples under the management of the Committee constituted under the Coorg Temple Funds Management Regulation, 1892. This body, of which there are 15 members, held one special and eleven general meetings, the average attendance being 8.83 members. Including the opening cash balance of Rs. 1,420 and the Government grant (Rs. 6,737) towards the upkeep of *chattrams*, the gross receipts amounted to Rs. 19,919 and the expenditure to Rs. 17,785 leaving a closing cash balance of Rs. 2,134. The main source of income was the Government grant of Rs. 13,561 added to which were voluntary offerings by pilgrims and contributions of grain, which amounted respectively to Rs. 1,509 and Rs. 1,228. The receipts also include a sum of Rs. 1,500 generously contributed by the Raja of Ramnad as a part payment towards the cost of constructing a building at Talakaveri to be used as a *chattram* by pilgrims. The expenditure was chiefly incurred on the performance of the customary religious services and ceremonies and on the purchase of food-grains for pilgrims.

249. Statement No. 173—*Charitable institutions*.—There are four *chattrams* at Mercara (2), Bhagamandala and Irpu respectively under the Temple Funds Management Committee, and they enjoy an annual endowment of Rs. 6,737 from Government. The three unaided institutions of this description located at Talakaveri, Virajendrapet and Somwarpet are maintained by private charity during a certain period of the year. Charitable institutions.

250. The supply of articles of stationery to Government offices in Coorg is arranged for in communication with the Superintendent of Stationery, Madras. Stationery.

251. The work of sorting and arranging the records continued during the year. The work is now being done by the record-keepers of the several branches of the Commissioner's Office assisted by such clerks as can be spared from the ordinary establishment. The work in respect of the records of the office of the Assistant Superintendent of Police was brought to a close during the year and the records of the office of the First Assistant Commissioner and District Magistrate have now been taken in hand. The indexing of the records of the Commissioner's English Branch already sorted and arranged is being done at the same time. Condition of records.

Co-operative
credit societies.

252. There was no change in the number (22) of societies. Together with the opening balance of (Rs. 14,853) and the Government loan of Rs. 1,000, the receipts aggregated Rs. 74,174 and the out-goings to Rs. 59,654 leaving a closing balance of Rs. 14,520. The number of members rose from 2,295 to 2,449. The collections of outstandings were satisfactory.

Cattle
insurance.

253. Seven societies for the insurance of cattle, with 263 members, were registered during the year. Three hundred and seventy-three head of cattle were insured and the amount of fees recovered was Rs. 1,558.

Treasure trove.

254. There were no cases of treasure trove during the year.

Fish
preservation.

255. The preservation of fish continued to be the care of the Coorg Fishing Association but its operations were seriously hampered by want of funds. A proposal to reconstruct the Association and with assistance from Government to provide it with sufficient funds is under consideration. February 15th to June 30th was fixed as the close season for netting. Four prosecutions were instituted during the year for offences committed under the Fisheries Act, viz., for fish-poisoning in the Cauvery and the Sampaji rivers. All of them resulted in convictions. The rewards paid by the Coorg Fishing Association to persons giving information of the offence amounted to Rs. 50.

PART III.

STATISTICAL APPENDICES.

I.—PHYSICAL AND POLITICAL GEOG

I.—PHYSICAL AND POLITICAL GEOGRAPHY.

Total area of the province of Coorg for the year 1913-1914.

Presidency or Province.	Coorg.	
Total area.	Acres.	
1. Area according to professional survey ...	1,012,260	<i>Note</i> —This statement corresponds with Form A—1 of the Tables of Agricultural statistics.
2. Deduct { (a) Pondatory States	
(b) Area for which no returns exist	
3. Net area by professional survey ...	1,012,260	
4. Corresponding area by village papers ...	1,012,260	

(2). Character of Surface.

1. Forests ...	357,740	<i>Note</i> 1.—This statement is Form A—2 of the Agricultural Tables. A detailed description of the character of the surface will be found in paragraphs 1 to 11 of the administration report for the year 1911-1912 <i>vide</i> pp. 1-3.
2. Not available for cultivation ...	335,694	
3. Culturable waste other than fallow ...	21,364	
4. Current fallows ...	159,257	
5. Net area cropped during the year ...	138,205	<i>Note</i> 2.—The area shown as not available for cultivation consists of (a) unculturable Government waste and (b) unculturable <i>banés</i> , estimated respectively at 12,337 and 213,357 acres.
Total ...	1,012,260	
6. Irrigated during the year { (a) Government canals ...	2,427	<i>Note</i> 3.—Item 3 is the estimated area of culturable Government waste.
(b) Private canals	
(c) Tanks ...	1,692	<i>Note</i> 4.—Item 4 is composed of (a) the estimated area of culturable <i>banés</i> (13,229 acres) and (b) the difference between the net area cropped and the gross holdings other than <i>banés</i> . It thus includes unculturable extents under actual holding, the area of which there is no means of ascertaining.
(d) Wells	
(e) Other sources	
Total area irrigated ...	4,119	
7. Crops irrigated { (a) Rice ...	4,119	
(b) Other cereals and pulses	
(c) Miscellaneous food-crops	
(d) Miscellaneous non-food crops	
Total ...	4,119
